

# Mobile Labour Epidural Sessions

– with *Dr Matthew Drake* (Specialist Anaesthetist)

Suitable for all core midwifery staff (experienced, new grads, new starters) and independent midwife LMC access holders. In association with a new guideline soon to be released “*Epidural Analgesia in Labour – Management and Care*”, completion of either an online module or attendance at a face-to-face session will be mandatory for core staff looking after women with epidurals in labour and is strongly encouraged for LMCs, particularly if they wish to mobilise women with an epidural.

Date	Time	Venue
